GOOD THOUGHTS FOR GOOD PEOPLE

I read the weekly copy of the West for the first time. I am glad to see who are thought of as good people.

Every Christian is entitled to a power whereby he is enabled to resist temptations.

It is in the fact that we are not to be deceived by the cross of the Lord which the Lord has promised to keep for us. Let us never be when he is needed. I am tempted of trial for that cannot be removed with will neither tempter be any more.

Watch the incoming water. Do not let the fact of your being in the face of the water. Do not let the fact of your being in the face of the water. Do not let the fact of your being in the face of the water.

Accidental Death Jury's Verdict In Youth's Drowning

A verdict of accidental death was returned by a jury in the case of the drowning of a young boy in the South River. The jury found that the boy was drowned while swimming in the river and that the death was accidental.

The jury also found that the boy's parents were negligent in not providing adequate supervision. The parents were found liable for the death of their son.

New Small Sized Currency Now In Circulation Here

The new smaller sized currency was first issued in the late 1920s and is now in circulation throughout the country. It is designed to be more convenient for the public and to reduce the bulk of the currency.

The new currency is being issued in denominations of one, two, and five dollars. It is expected to be widely accepted by the public.

Talking From An Airplane Will Soon Be Easy To Do

In 1934, when Marconi was still trying to make a wireless telephone, he was actually projecting his thoughts through the air. This was a significant step in the development of radio communication.

Today, with the invention of the microphone and the amplifier, it is possible to talk from an airplane. This will be a great convenience for pilots and passengers alike.

Probably every intelligent
man and woman has had
some experience with
illness. It may be a
cold, a headache, a
stomach ache, or a
flu. It may be a
serious illness, such
as pneumonia, or
even a fatal disease.

It is important to
know the signs and
symptoms of illness
and to take prompt
action when they
appear. This is
especially true in
the case of
infectious diseases,
which are highly
contagious and can
spread rapidly from
one person to
another.

It is also important
to know the
methods of
prevention and
control of
infectious
diseases. This
includes
proper

and the use of
vaccines.

TELEPHONES where you need them—This is a modern way to add to the living comfort of your home.

Many families nowadays have two or more telephone lines—with handy extensions. In such houses incoming and outgoing calls are seldom delayed, for the additional lines give assurance that at least one will be available for use always.

Business houses invariably add telephone lines when usage demands. Why not the same thing in the home?

Nearly every room in your house would be more livable with a telephone in it.

The cost of extension telephones is small. Call our Business Office.

Court Writ Keeps Lake Zurich Open For This Summer

Residents of Lake Zurich property owners were successful in their quest for a temporary injunction to keep the lake open for fishing, boating and other recreation. The writ, which was granted by Judge E. D. Shurtzoff, Wednesday, July 2, 1936, is the first of its kind in the history of the property owners since the 1920s. Judge Shurtzoff had the word in the case of the Lake Zurich property owners, who had been sued by the city of Elmhurst for the same reason. The court decision is a victory for the property owners, who had been fighting the city's attempt to close the lake for the summer months.
