THE EXTENSION OF THE "L"

The editor of this paper has been asked many times what he knew about Westchester. Many people are more or less interested in the development and are wondering if it is really going to go over in a big way.

The answer would seem to be given in the starting of service late week by the Chicago Rapid Transit to Hoop street road. There is no traffic at this time to justify operation of trains on a twelve minute schedule but it is significant that the service is being started as a guarantee to investors that they will have fast, frequent, satisfactory transportation.

A double system of sewers is to be built—a sanitary sewer and sewer for storm water—at a cost of approximately \$100,000. Official notice was published as required by law in full about forty-two columns of solid type and will doubtless be confirmed by the court early in October so that contracts can be let and work started this fall if possible. The engineers are now working on a water supply system and as soon as there are in street improvements will follow.

The men behind the Westchester project are spending so many hundreds of thousands of dollars that there is no question but what it will be carried through on a large scale. They are not fighting on a mushroom growth with the paper shacks. They are planning a high class development over a period of years; they are making provision for all public improvements, including parks, playgrounds

and a civic center. Every block has been paved and there will be no formation of any kind on railroad yards or other objectionable features. This is not written as a "ballyhoo" for the subscribers. It is written to give the facts as they have come to the knowledge of the editor. You may have inquired about the big project right at our doors. Some may be still and some may be sorry to see a development of this kind so near by but regardless of how it may be looked upon locally, there is not the slightest doubt but what Westchester is destined to be one of the largest suburbs around Chicago.

Girl Scout News

By Mary Kay Bainbridge
The Girl Scouts of Troop 1 with their leader, Miss Schwartz, met at the Aurora Elgin station on Saturday morning, October 2nd. We were all excited for the 7:35 train to depart. Who? You will know when you have finished reading this.

The train came at last. Eleven of us stepped into the car and fortunately found seats and we were on our way. Where? To the Stockyards. There is no need to mention that we were well aware when we had reached our destination.

We were shown to seats in the reception room to await a guide, who finally made his appearance, after what we thought a long time. He took us first to see the pig slaughter. We saw how they were brought up on the "pig wheel" and then brought over to the men to be killed. Such a sight! We saw the different places where each part of the pig was prepared, each man having his own particular job. Then we saw the sheep killed and prepared. The sheep were killed exactly in the same manner as the pigs only the wheel, I guess, may be called a "sheep wheel" this time.

After looking through Swift's building, we went through Lihly, McNeal and Lihly's. Here, we saw how the food after being prepared, was canned. After we came to our quarters and to this building, we were taken into a rest room. Here a woman had prepared the different foods in a very homelike way and explained how they could be used.

I have heard that your appetite seems to fall soon after you have visited the stockyards, but really I think you have a chance to judge if this was so, for with plenty of food around, they only leave us each cracker with a small slice of Corned Beef on it.

When any one with our appetite could not stay and not notice it. After we had rested awhile we were told to go to the stockyards. We were going next. We finally decided to go and visit the Cretico and Hill House. We arrived at Maxwell street station to see what the ticket looked like. We walked two by two with our eyes wide open and saw many interesting and novel personalities. They told us about the wonderful bargains they had, but they didn't find us very easy victims, probably because we came to see and not to buy. We could however, have taken advantage of such bargains as diamond rings at eleven cents each and five pairs of silk stockings for \$1.00 had we been so inclined.

These stores as you know, are out on the sidewalk. The buildings were so dirty you could hardly believe that human beings could ever live in such places. As we passed, people wanted to know "if school was vast out." We finally arrived at and were shown through "Hill House," seeing the signs in which people have their banquets or dinners. Drawings ornamented the walls. The pupils who studied art at Hill House drew them. Most of them were scenes from the district. The guide showed us how optimistic was done and seats that were made by the pupils by weaving.

We also saw the water in which they have algae and meetings. After looking through Hill House we decided we were all "tinkered out" so we returned home, all vowing we had a very interesting and instructive trip, and are all looking forward to the next "social" meeting, which is our last meeting of every month. In the month time we will all work hard to become the holder of the First Class Badge.

WHY NO TRANSPORTATION FOR GLENBARD STUDENTS?

Under the above caption an article appeared in last week's issue of The Press, in which a paragon of Glenbard depicted the fact that his service was not available for Lombard High school students, who have to attend Glenbard and called attention to the fact that the school seemed to be unable to afford the convenience. The article has elicited the following reply from the President of the Board of Education.

Our attention has been brought to the article which appeared in the "Lombard Press" of last week concerning the transportation of Lombard pupils of Glenbard High School. No argument is necessary to impress the members of the High School Board of Education with the desirability of furnishing transportation for all pupils living at a considerable distance from the High School building.

The matter has been the subject of frequent deliberation with the hope in the minds of all that a solution of the problem might be found. We are confronted with this difficult problem of Education, have only such powers as are vested in them by statute. There are nine different classes of school districts in the State of Illinois and in but one of these is the power vested to expend money for the transportation of pupils. This one being the Community Consolidated School District and in this class of district the Board of Education is not only permitted to transport pupils, but they are required so to do.

We are advised that the case of Mills vs. School Directors, reported in Volume 184 of the Illinois Appellate Court Reports, on page 119, is the leading case upon this question. The Court says: "Under the statute expressly empowers a school board to hire wagons to haul children to and from school, such contracts are void. To secure the right and opportunity of an equal education does not require that the children should be bused to school any more than it would require that the directors should clothe them or furnish meals."

We hope that soon the School Boards of Illinois will get together and let the members of the General Assembly what they desire in this and many other school problems. Louis E. Thiele, President, Glenbard High School Board of Education.

RETURNS FROM SAD MISSION IN SOUTH

Mrs. E. M. Schaefer of North Lincoln avenue, with her little son Edmond, returned Tuesday night from a visit in her old home in Macon, Georgia, whither she was called by the sudden death of her father, C. C. Rodriguez, who passed away Saturday afternoon, September 29th, following a stroke of paralysis. Funeral services were held the following Tuesday, the circumstances surrounding them being unusually pathetic because of the absence of two daughters, Mrs. Hookin and Mrs. Denham.

who were victims of the Florida hurricane which occurred on the date of Mr. Rodriguez' death. Mrs. Denham lived in Buena Vista, and Mrs. Denham in Hialeah. Their homes were swept away and they lost everything Mrs. Denham is a patient in an Atlanta hospital, in a critical condition as a result of shock and exposure. Mrs. Schaefer says that the stories they tell are harrowing in the extreme, and that the Florida papers expressed as many of the details as possible. One of Mrs. Schaefer's sisters walked five miles through the flooded streets after the storm, and both women lived in their wet clothing until the Tuesday following the hurricane.

Mar-Motor Fuel
New Fox
If you think all gasoline is alike, there's a happy surprise in store for you when you fill up your tank with New Fox gasoline and it starts flowing into your carburetor. From that instant—when your motor gets the first charge of clean, volatile, high-powered gas vapor—it will take on a lease of new life and show a performance that you'll be mighty proud of. There have been many remarkable improvements in motor design the past few years. And now here's a real improvement in motor fuel in full keeping with other advancements in the automotive industry. Greater mileage, no carbon knocks, less crank case dilution and worlds of power—that's what you get when you buy New Fox. Why not try it today? NEARLY 700,000 BOY SCOUTS IN UNITED STATES

Illinois is Third in U. S. With Total of 29,906; Increase is 175,000 in 1926

Boy Scout membership in the United States and possessions at the beginning of the half year, showed a total of 24,558, including Lone Scouts but excluding one-arms who numbered 11,591, or a grand total of 361,487. The Lone Scout total reached 109,106 last year total for scouts and Lone Scouts was 418,469.

New York State leads in membership, according to the latest compilation of state wide figures recently issued by the National Office. New York had 59,256 scouts, while Pennsylvania was next with 44,472 and Illinois and California follow with 29,906 and 21,203 respectively.

A complete table by states, which, however, does not represent the full strength of the organization is as follows:

Alabama	6,679	Missouri	17,474
Arizona	177	Nebraska	6,574
Arkansas	3,532	N. Hamp.	1,355
California	29,906	N. Jersey	26,721
Colorado	3,549	N. Mexico	1,352
Connecticut	9,916	Nevada	329
Delaware	904	New York	59,256
Dist. Col.	2,868	D. Dakota	2,225
Florida	6,191	N. Carolina	6,710
Georgia	3,951	Ohio	23,584
Idaho	4,849	Oklahoma	3,011
Illinois	29,906	Oregon	4,250
Indiana	11,893	Pennsylv.	44,472
Iowa	11,054	Rhode Is.	4,211
Kansas	7,764	S. Carolina	3,248
Kentucky	6,807	Tennessee	8,719
Louisiana	5,547	Texas	37,149
Maryland	4,827	Utah	9,145
Maine	2,929	Vermont	1,855
Massachusetts	11,281	Virginia	5,266
Michigan	20,897	Wash.	8,152
Minnesota	16,818	W. Virginia	4,726
Missouri	4,538	Wisconsin	11,394
Mississippi	4,122	Wyoming	1,674

The table also shows 4,094 scouts in military possessions and in foreign countries, who are restricted with the Boy Scouts of America. These members are located on the Hawaiian Islands, Philippine Islands, in Porto Rico, Panama, Alaska, and in Japan, China and other countries where troops of American boys residing abroad have been formed and duly registered with the Boy Scouts of America.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of The Lombard Press, published weekly at Lombard, Illinois, for Oct. 1, 1926.

State of Illinois, ss. County of DuPage.

Before me, a Notary Public in and for the State and County aforesaid, personally appeared Harold J. Cruger, who having been duly sworn according to law, deposes and says that he is the Editor of The Lombard Press, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in Section 463, Postal Laws and Regulations, to-wit:

1. That the names and addresses of the publisher, editor, managing editor and business managers are: Publisher, J. W. Cruger, Elmhurst, Illinois. Editor, Harold J. Cruger, Elmhurst, Illinois. Managing Editor, Mrs. A. H. Seaton, Lombard, Illinois. Business Manager, J. W. Cruger, Elmhurst, Illinois.
2. That the owner is The Elmhurst Press, Incorporated. J. W. Cruger, Elmhurst, Illinois. Ida Louise Cruger, Elmhurst, Illinois.
3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: None.

Harold J. Cruger, Editor. Sworn to and subscribed before me this 7th day of Oct. 1926. (Seal) Ruth H. Cruger, Notary Public. (My commission expires Mar. 25, 1929)

KEEP BOOKS CLEAN

In observance of Good Book Week which commences this year November 9 to 15, the Library will conduct a Book Mark Contest for the grade pupils in the public and parochial schools.

These book marks should call attention to the care of the books either by mottoes, slogans or by verses. The designs on the book marks may be original or copied, but originality will count high with the judges. Prizes for the two best book marks in each school will be given by the P. T. A. associations and by the Women's club. The Library will give a book.

32 MILLIONS FOR ROADS

Ogden Avenue Widening to County Line Recommended by Advisory Committee of Board

Widening of Ogden Avenue from Lawrenceville Avenue to the county line is recommended by an advisory committee of the Cook county board. The committee made public its recommendations this week.

Shoulders, bridges and intersections would be widened on Ogden Avenue at once to eliminate the traffic jams that now occur on Sundays and holidays. Later the avenue is to be paved to a 40-foot width.

The county will place a \$20,000,000 bond issue before the voters this fall. Improvements recommended will cost \$12,000,000.

Who will be the hero of the World Series?

OUT from the bush steps the new sensation! Boiling with energy—sharp and sudden in action—spectacular! A world-beater? Perhaps! But when the big strain comes—when the major league teams stand face to face and the whole panicked country is trembling from the tension of the world series—who is the ace-in-the-hole?

Into the box strolls the old regular! Wise—calm!—dependable—always ready for the unexpected—always with something up his sleeve! The old master! For the skill of youth is swift skill; while the skill of the seasoned athlete rests on ripe judgment and enduring control.

The field of sport reaches the whole span of life and *The Chicago Daily News* covers it fully, accurately, with the sparkling spirit of sport itself!

The whiplash smack of the driver, and the little ball soaring up against a blue sky—and falling lightly as a bird, straight and true upon the springy fairway—

The staggering, sweeping rush of a deep-laden canoe through white water, with the black walls of pines rushing by—

The tense, nervous, suddenly darting figures of tennis players, whirling with desperate activity—frozen, breathless, as a championship balances on the net—

The gasp of thirty thousand men as the King of Swat nails the fifth pitch, and sends the ball sailing into deep center—the run, the leap of the fielder—the fumble—the recovery—the racing men on base—the volcano of bursting hearts and roaring throats—

All have their place in the sport pages of *The Chicago Daily News*. With them are the players of basketball, football, billiards, polo—yachts, horses, fish—every sport that has its followers.

When the games are done and the final stories are told by experts who know the sport, no matter where it is played on the broad playground of the world—whichever one may interest you—

A Lecture on CHRISTIAN SCIENCE THE SCIENCE OF HEALING

Gavin W. Allen, C. S. D. of Toronto, Ontario, Canada Member of the Board of Lecturers of the Mother Church, The First Church of Christ, Scientist, in Boston.

Delivered at First Church of Christ, Scientist, Wheaton, Ill., Friday evening Oct. 8, 1926.

Whenever the name Christian Science is mentioned today, even to those who know not little about its history it is heard immediately and naturally to the subject of healing because "Christian Science" "healing" have come to be intimately associated in the minds of many.

Little more than three years ago, Mrs. Eddy had issued the publication of "Science and Health with Key to the Scriptures" in 1910. The voice of God in behalf of the African slave was still echoing in our ears.

Let us consider for a moment some instances of healing, as these are related in the early chapters of Genesis. In Genesis 27, we read that Abraham prayed unto God and God heard him.

Throughout the Bible there runs a golden thread of healing, growing concept of God. You will remember that God was regarded by men of olden times as a human form, and having a local habitation; that He was spoken of as a "man of war" and as a "man of peace."

OLD TESTAMENT MIRACLES During these Old Testament times when the popular conceptions of God seem to us to have been somewhat grotesque and when the superstitions of the people seem to have believed God to be capable of both good and evil, there were here and there in which the power of God was proved in the protection and preservation of His people.

These works were wrought through great faith in God. The writer of the Psalms to the Hebrews, in reviewing the exploits of the patriarchs, said: "By faith Abraham, when he was tried, offered up Isaac; and he that had received the promise of Isaac, offered up the only-begotten son, and he that had received the promise of Isaac, offered up the only-begotten son, and he that had received the promise of Isaac, offered up the only-begotten son."

Let us trace its history. Many a time has it occurred that a new religion has arisen in a city, and the residents of the city, having been used to the old religion, have looked upon it with suspicion and have sought to suppress it.

There were, on some occasions, such cases as well as the ones I am about to judge that the basis of these works was not scientific, in the strictest sense of the word.

PERFECT HEALING But there is a Science of healing. This was definitely and adequately proved through the life and works of our Master, Christ Jesus. He did not claim that the new religion he founded, himself, he said, "The Father."

Let us look for a moment at some of the records of perfect healing. It is recorded in John 8:11. The one he had healed, the blind man, said: "Thou hast brought to me light, which I had not."

Another example of perfect healing is seen in the treatment of the man who is recorded in John 5:1-14. This man had been lame from birth. Jesus said to him: "Arise, take up thy bed, and walk."

What is this Science of healing? Upon what is it based? Our Master Jesus said: "The Father that dwelleth in me, he doeth the same things which I do, because the Father loveth the Son, and hath committed all things unto him."

Jesus also defined God as Spirit, and the Fatherhood, praising God for all that He doeth, and saying: "I will glorify Him, because the Father loveth the Son, and hath committed all things unto him."

There is another word or name which we use to express the Father, and that is "God." This word is used in the Bible, and in the Christian Science text-books, and in the Christian Science lectures.

Let us trace its history. Many a time has it occurred that a new religion has arisen in a city, and the residents of the city, having been used to the old religion, have looked upon it with suspicion and have sought to suppress it.

SOUTH SIDE MOTHERS' CLUB

(Editor's Note—The South Side Mothers' Club is an independent organization formed to take care of the needs of the South Side District school, and is not a branch of the Mothers' Club, as was erroneously stated in The Press last week.)

The South Side Mothers who have recently formed a club, held their regular meeting on October 1st at the home of Mrs. T. S. Miller, 242 South Stewart avenue.

Plans for the welfare of the portable school were discussed and agreed upon, in spite of the poor attendance, for which, of course, we blame the weather, and it doesn't seem to care.

Checks have been purchased and installed, and the curtains are in the hands of the club, but not set up yet. The members plan to fit the entrance hall floors with linoleum as soon as possible, and they have pictures for the rooms, but they will have to be framed, and this is no small item.

However, the Mothers certainly have a splendid start in this worthy enterprise, and are very grateful for the help they have received from the parents, toward financing the purchase of the necessary articles.

Their next meeting will be held at the home of Mrs. M. R. Kifer on Hickory Road, and a better attendance and better weather is hoped for and expected.

FELLOWSHIP CLUB

The opening meeting of the Fellowship Club of Lombard will be held Friday evening, October 15th, at the Parish House of the First Church of Lombard.

To those who have never attended one of these meetings, let it be said that the Fellowship Club was organized a number of years ago by a small group of men who realized the necessity of having the men of our community become better acquainted with each other. From a small beginning this club has grown to a membership that makes it possible to meet men on an equal footing in a friendly way. The members and its officers are extending a welcome to all men who have only recently become residents of Lombard, as well as to those who have not been able to avail themselves of an opportunity to enjoy an evening in pleasant comradeship.

Dinner will be served by members of the Ladies Union at 5 1/2 Harrison. A Miss will again lead in its singing. It is planned to have Mr. W. W. Cox as speaker of the evening, on a subject that will appeal to all men. That's all we will tell you now as it is going to be quite a treat.

The ladies are out when you arrive—Remember the date, October 15th.

VILLAGE OF LOMBARD, ILL.

Notice of Proposals For Bids

NOTICE TO CONTRACTORS

NOTICE IS HEREBY GIVEN that sealed bids will be received by the Board of Local Improvements of the Village of Lombard, Illinois, at a meeting of said Board to be held in the Village Board Chambers in the Village Hall, said Village of Lombard on the 13th day of October, 1926, at the hour of 3 o'clock P. M. for the making of a local improvement consisting of the opening and extension of Park Avenue from St. Charles Road to Grove Street. It said Village, consisting of the necessary earth excavation, earth fill, removing concrete curb, removing fences, trees, shrubs and posts, and grubbing trees, and laying vitrified tile pipe sewer and constructing Portland cement concrete catch basins.

The ordinance giving the details for said work may be seen on file in the office of the Village Clerk of said Village.

The contractor for said improvement will be paid in vouchers and bonds which will draw interest at the rate of six (6) per centum per annum.

All proposals and bids must be accompanied by a check payable to the order of Fred P. Maisei, President of the Board of Local Improvements of the said Village of Lombard, in his official capacity, certified to by a responsible bank for an amount which shall not be less than ten (10) per cent of the aggregate of the proposal. Said proposals or bids must be delivered to the said Board of Local Improvements, and said Board will, in open session at the time and place above stated, examine and publicly declare the same. Provided, that no proposals or bids will be considered unless accompanied by such check or cash.

The successful bidder for the construction of said improvement will be required to enter into bond in a sum equal to the amount of such bid, with sureties to be approved by the President of the Board of Local Improvements, which bond shall be filed with the Board before entering into contract for the construction of said improvement. All bids or proposals shall contain an offer to furnish such bond upon the acceptance of such bid or proposal.

The Board of Local Improvements of the Village of Lombard, Illinois, reserves the right to reject any and all bids or proposals should they deem it best for the public good.

Dated Lombard, Illinois, this 5th day of October, A. D. 1926.

In Our Schools

On Wednesday afternoon the children in Mrs. Ryan's room invited their mothers to visit them, so that they might see what had been accomplished during the first month at school.

A puppet show setting forth the adventures of Billy Goats first had been worked out during story time and this show was proudly presented at our Mother's meeting.

This miniature stage will be used for the dramatization of many other familiar stories.

We hope our mothers will continue to visit us regularly.

Several people have asked what kind of exercises are wanted in the geography room. We want old copies of Ladies Home Journal, Pictorial Review, Woman's Home Companion, etc., or any that have advertising matter.

In the Music Room Miss Whitton reports that Mendelssohn's life was looked up and told before the class Thursday by Donald Goetz, an 8 year old boy. Stories of Handel's early life and work were told to the class. It was interesting way by Alice Colow Wednesday, and themes from the oratorio "The Messiah" were played on the piano.

Sections 9 and 10 had a special program of songs last Friday, made up from songs learned during the first month at school. Some pleasing quartets, duets and other group numbers were done.

Columbus Set a High Mark

On his voyage of discovery, Christopher Columbus set a high mark for courage and determination. When a business man has the courage to expand his business, let him have the determination to achieve.

LADIES' UNION WILL SPONSOR CONCERT SERIES

The Ladies Union will sponsor a series of three concerts at the Parish House next Thursday, Mrs. Martin Murphy is the hostess and she and her committee will be glad to welcome you and see that you spend a pleasant afternoon.

The Ladies Union has arranged to give a series of three concerts this year, which we know you will be interested in. There will be one Oct. 7 given by Sotter Yoder, one Oct. 14 given by the Ladies Main quartet, and every one who heard them last year will want to miss them this year, and one April 27 given by Noah Beithart, a noted character impersonator. As we know that most every one will want to attend these performances, we have had season tickets printed which are now on sale for \$1.25 for adults and 75c for children. These tickets may be secured through the members of the Union and will also be on sale at the box on the 14th.

UTTNER PROPERTY NOT TO BE REZONED

At a public hearing before the Zoning Appeal Board of the Village of Lombard held on Tuesday evening, October 5, 1926, the petition of Ethel M. Zace, owner of the property formerly known as the Kuttner place on Madison street, to have same rezoned for tubercular sanitarium and mercantile uses, under the Madison Street frontage, was denied.

On January 1, 1926, Illinois had 1,900 producing oil wells—in an increase of 189 during 1925.

"Look here! Men, what are you doing with 'em boys?" asked Father Johnson of one of his parishmen. "Father," explained Tommie, "the all-crowns return in six weeks. An all-crown is a trouble-wid do, comin' out too early. It'll wash out soon as it gets out, but it's been in the women's line of dress. If women folks, dey was sent satisfied for 'em over all 'em clothes what I see for 'em, but dey had to put 'em back in de store, 'cause dey were no more convenient."

The newspaper that publishes the women is the newspaper that makes value for the advertiser.

We spend 10% more

To Make Hupmobile Worth 25% more

The premium of 10% that Hupmobile spends to insure better materials, more thorough inspection and closer, more accurate measurements, pays handsome returns to the Hupmobile Six owner.

For as the direct result of such scrupulous attention to engineering and manufacturing detail, the Hupmobile owner may expect an addition of at least 25% to the useful life of his car.

That Hupmobile actually delivers this extra value is proven by the number of Hupmobiles driven long after the majority of moderately priced cars are traded in.

Hupmobile today maintains the same high standards in building its Six that it has rigidly adhered to in 18 years of quality manufacture.

The Six is not merely outstanding in smoothness, in power and in acceleration, but it is built to retain those characteristics through the years.

It is a new Six in the sense that it is a development of the past two years—designed without regard to outworn precedents, and constructed to deliver a new type of more brilliant and lasting performance.

You will note on the Hupmobile Six advanced features that you would expect only on cars of much higher price, such as thermostatic control of the cooling system, vibration damper, four-wheel brakes, gasoline filter, oil filter, etc.

But you will find such features added, not as sales points, but engineered into and part of the thorough-going quality that makes up the value-appeal of this line car.

A telephone call will bring the Six model you wish to inspect to your door—the roomy, family-size five-passenger Sedan or the attractive two-passenger Coupe with handy rumble seat for two extra people. See the Hupmobile Six by all means before investing money in any car.

HUPMOBILE SIX

E. P. GEISLER GARAGE

107 West St. Charles Road

LOMBARD ILLINOIS

Hupmobile Six a leader. Also in Coupe, Modern Equipment. What goes into a motor car is only more important than what goes on it. You will pay for it, of course, on more accurate and non-erasable, but as proven performance, dependability, long life, and low cost of maintenance. In appearance, however, the Hupmobile Six also joins the latest and most complete equipment to be found on any car in its price class.

Oil filter, gasoline filter, low gasoline consumption, thermostatic cooling system, vibration damper, ventilating windshield, dash gasoline gauge, clear vision bodies, color options—Molay upholstery in latest mode, walnut grain panels on instrument board and window frames, 4-wheel brakes, special vibration damper, hood-light with tilting beam lenses and double filament bulbs.

Sedan, 5-w. passenger, four-door, \$1,995. Coupe, two-passenger, with rumble seat, \$1,795. Five-passenger, \$2,195. Four-wheel brakes, 30 in. ball-joint tires, four-wheel brakes.

All prices in U. S. Dollars. See nearest dealer.

Our used cars are good buy—most only because they are bargain but because they are with new complete selection first in mind.
