that some great disaster or tragedy is imminent. It is the only thing that can save the world from a catastrophe. It is the only thing that can save the world from a catastrophe. It is the only thing that can save the world from a catastrophe.

Twenty years ago, in 1903, the world's population was about 1.5 billion. Today it is over 2 billion. The world's population is increasing at a rate of about 25 million per year.

I am told that the Fair, when it is held, will be the greatest of all time. It will be the greatest of all time. It will be the greatest of all time. It will be the greatest of all time.

To celebrate our 100th birthday, we are holding a World's Fair. It will be the greatest of all time. It will be the greatest of all time. It will be the greatest of all time.

In 1933 Chicago will be one hundred years old. This is a great anniversary. It is a great anniversary. It is a great anniversary. It is a great anniversary.

On account of our hundredth birthday, we are holding a World's Fair. It will be the greatest of all time. It will be the greatest of all time. It will be the greatest of all time.

It has been said that the day of the World's Fairs is past. That with the modern transportation conveniences and the increased facilities for the dissemination of information that people generally would not visit a fair. This might be true were the coming fair to be of the same old competitive type such as all others have been, where some kind of products from competitive concerns.

FRIGIDAIRE has the added power that keeps foods fresher longer

and the "Cold Control" that makes desserts better and ice cubes quicker

FRIGIDAIRE has a surplus of power. Even when the thermometer climbs high in the nineties there is power to spare for emergencies. By its position in the cabinet the powerful Frigidaire mechanism is made still more efficient. It is enclosed in a special compartment at the bottom... where surrounding air is the coolest. It is out of sight and out of the way, with nothing to catch dust or dirt.

Frigidaire maintains a low, uniform temperature in the food compartment without attention. And in the dessert and ice-making compartment it is also regulated automatically. But if you want extra-quick freezing temperatures you can have them... whenever you wish... by simply turning the lever of the Frigidaire "Cold Control."

The "Cold Control" gives you your choice of six different freezing speeds. It enables you to freeze an abundance of ice cubes and desserts easily and quickly. The Frigidaire "Cold Control" is found on no other electric refrigerator.

See the Frigidaires now on display. Examine the smooth exterior and interior surfaces; the rounded corners; the waist-high shelves. Note the incredible quietness of operation. Let us tell you about the easy monthly terms. Come in today.

Let us help you win in big \$25,000 contest

Come into our display room. Learn why 40% is the safety point for perishable foods. Then write a letter that will give you a chance to win a model home, a Cadillac car or one of many

Other valuable awards now being offered by the National Food Preservation Council. Come in, and get the rules of the contest and complete information today.
